

# Small Group Instruction

The possibilities are endless with small group classes this summer! We work with our teachers to develop unique curricula for each class in a variety of subjects. Some ideas for classes are:

- Book clubs
- Math enrichment
- Study skills
- Science camp – natural science, astronomy
- Computer camp – website design, PowerPoint
- Foreign languages – Chinese for kids, Club D'Español
- Art – photography, drawing, painting
- Language Arts enrichment – Grammar Boot Camp, The Writing Team
- Create your own!

Please call us to make an appointment to discuss options. Note that there is a minimum of 3 children per group. Class schedules are flexible and can be tailored to your availability and your child's needs. Prices will be based on the number of students and sessions per class.
